

PRESS RELEASE

Condemn Character Assassination & Privacy Violations of MR. VIKRAM MISRI (Foreign Secretary, MEA – Government of India) & His Family

Hyderabad / New Delhi,
12th May 2025.

CRFHGR condemns all sorts of attacks and abuses hurled against our Hon'ble Foreign Secretary Mr. Vikram Misri sir and his family including incidents of character assassination and threats to individual privacy and right to living in view of our government's logically correct decision of coming to a ceasefire understanding with Pakistan in the immediate aftermath of Operation Sindoor.

Mr. Vikram Misri sir is a distinguished bureaucrat and a diplomat with a proven track record of top-notch national service and is continuously working towards preserving and promoting our national interests home and abroad.

Targeting such great officers and their family members for the decisions taken by the political executive only reflects sheer ignorance, immaturity and intellectual bankruptcy of those who indulge in such attacks.

We request the government to take stringent action against all those perpetrators as per the law. There should be no room for any tolerance in this sort of behaviour during critical national moments like this.
